

NOTE: The Federal Motor Vehicle Information and Cost Savings Act requires that, when an odometer is replaced, the mileage on the new replacement odometer must be left at 0 miles, or adjusted to reflect the mileage of the odometer being replaced. If the new odometer is left at 0 miles, the attached label must be filled out and affixed to the left door frame.

Adjustment should be done only by qualified personnel and only if required by state or local laws.

The odometer in this vehicle has been replaced with a new odometer with an initial reading of 0 miles. The mileage on the odometer replaced was _____ miles. Replacement date _____.

This notice is provided in accordance with the Motor Vehicle Information and Cost Savings Act – removal or alteration of this notice is unlawful.
